## Dehradun!

The City of Education

Dehradun is one of the oldest cities in India. In the Vedic times, the Garhwal Mandal, of which Dehradun is a part, was known as the Kedar Khand. Legend has it that Guru Dronacharya, a Brahmin teacher of warfare, considered Dehradun a place fit for meditation & worship and therefore, the valley of Doon was christened Drona Ashram, which means "The Abode of Drona".

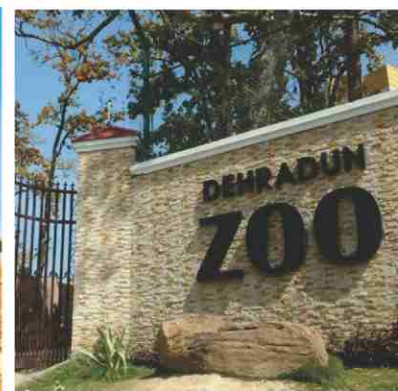

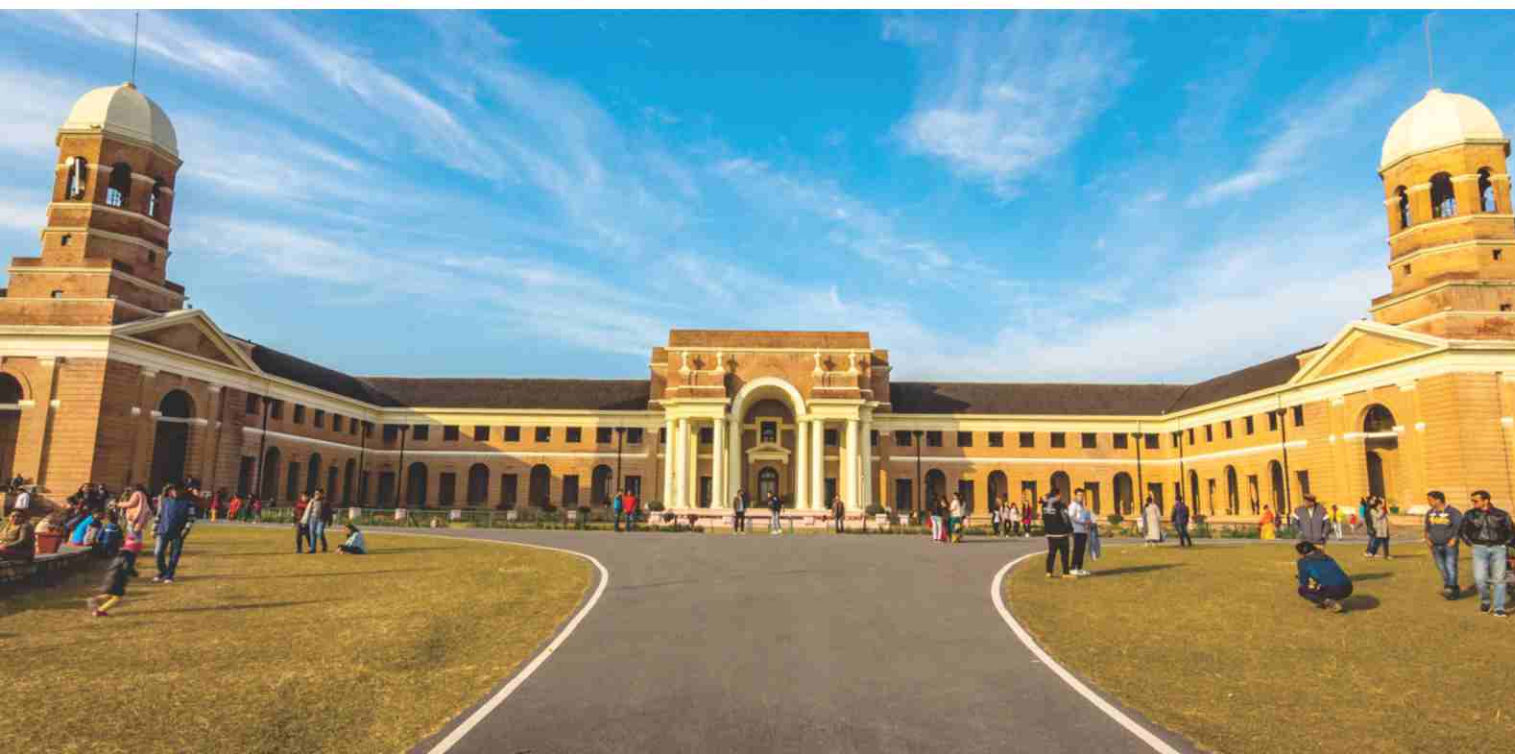

Dehradun is situated in the North Indian state of Uttarakhand (formerly Uttar Pradesh) around 235 km from Delhi. Dehradun extends from the latitude 30° 19' in the North to longitude 78° 04' in the East. The City of Dehradun is well connected to other cities of North India by rail, road, and air.

# Queen of Hills

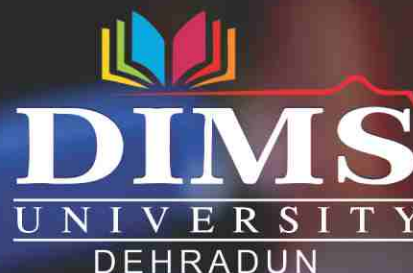

Dehradun the world renowned pre-graduation education hub or a place of brief stopover enroute to 'Queen of Hills' Mussoorie. The city's climate always embraces and welcomes with a swift feeling of serenity.

# YOU & US

**FUTURE  
SUCCESS  
SECURED *US*  
FOR (YOU)**

- Your courses are developed and taught by experts.
- Your course offers you breadth as well as depth.
- Attending lectures and seminars you can access many lectures and learning resources on the move.

From our outstanding faculty and staff to our diverse and capable students to our distinguished alumni, we are proud of our contributions.

***“The tradition of excellence is ours;  
the choice is yours”***

**Anukriti Gusain Rawat**

**Executive Director  
(DIMS University)**

## **FROM THE EXECUTIVE DIRECTOR DESK**

As we welcome you, the future leaders and productive citizens of the world. I would like to stress in our mission statement of grooming young minds and hearts as the pillar of advancement of a nation and hope the future. DIMS University was formed by Shri Mati Poorna Devi Trust with the aim to promote education and culture in all aspects in order to achieve and fulfill the mission statement that we believe in.

As an established and highly esteemed institution, we maintain an almost academic standard, incorporated with the conduct of discipline, thereby achieving remarkable and excellent percentage of results. We firmly believe that education is the key to a nation's progress with this; we will take it as our bounded duty to provide the best academic training a can possibly get. The University endeavors to comfort the students with all the necessary knowledge and skills to become truly successful in the chosen field. In whatever career a student may choose to take, hard work and discipline are the sure roads towards success and as your education institution, we will support students in achieving those golden ambitions and also ensure that their stay in the college is meaningful and fruitful as well.

THE WORLD IS  
CHANGING AND

# WE ARE READY!

## VISION

DIMS University strives to create an educational environment where students are supported to take full advantage of their experience here. Education at DIMS University is about creating opportunities for your future – in this fast paced age of globalization, career possibilities are endless. Here at DIMS, we create the pathways to enable you to access every one of those possibilities. The University offers a truly internationalized curricula and broad access to a diverse range of degrees, study abroad and learning experiences to shape future global leaders.

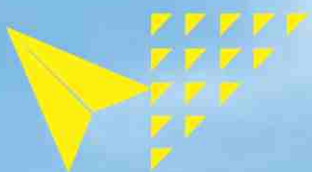

## MISSION

DIMS University positively influences society by engaging in the pursuit of excellence through the creation, preservation, transfer and application of knowledge. DIMS helps shape the future by bringing together and developing leaders in their fields to inspire the next generation and to advance ideas that benefit the world.

## VALUES

Values are important and enduring beliefs or ideals shared by the members of a culture about what is good or desirable and what is not. Values exert major influence on the behavior of an individual and serve as broad guidelines in all situations.

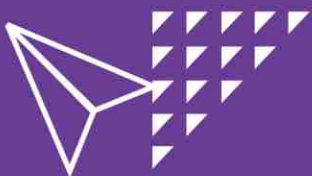

**DIMS**  
University

## ABOUT DIMS:

The DIMS University is able to provide a wide range of tutoring, agriculture and Hospital related jobs to the students who are currently studying at the DIMS University. We commit in providing faster and efficient feedback to students. We also hope that you will benefit from this exposure to the teaching environment. This type of work provides a valuable insight for those considering a career in Hospitality, agricultures and useful transferable skills. Work in a particular course might also improve your knowledge of a subject area, or open up new research opportunities.

# DIMS SUPER SPECIALITY HOSPITAL

The hospital is on its way to becoming a super specialty hospital. THE PROFESSIONAL IN YOU**

# FACULTY OF PARAMEDICAL SCIENCE

## **B.Sc.** (in Medical Microbiology)

### **BMLT** (Bachelor's in Medical Lab Technician)

Bachelor in Medical Laboratory Technology also called Clinical Laboratory Science is concerned with the diagnosis, treatment, and prevention of diseases through the use of clinical laboratory tests. In this course, the students learn to perform tests that aid in the diagnosis and treatment of diseases. The Course will give students insights of how Medical laboratory technicians assist Physicians in the diagnosis and treatment of diseases by performing a test on tissue, blood, and other body fluids. They determine the presence, extent or absence of disease and provide data needed to evaluate the effectiveness of treatment.

### **BMRIT** (B.Sc. Radiology & Imaging Technology )

B.Sc. Medical Radiology & Imaging Technology is a 3-year regular degree program. At present Radiography is one of the most popular modern medical technologies available. This technology is used to diagnose various diseases and disorder in a human body. This course will give students insights of how the radiology and imaging technology is used for the diagnosis of various diseases and disorder in the human body.

A radiographer produces radiography of patients with the help of X-ray to find the exact medical condition of the patient. In addition with X-ray, a radiographer also considers CT scans, ultrasounds and MRI for producing radiography. Radiology field is broadly divided into two areas namely diagnostic radiology and interventional radiology. Diagnostic Radiology is the specialization of medicine that uses the images of X-Ray and other imaging techniques to diagnose the disease and injury of patient. Interventional Radiology is the another medical specialty that also uses imaging techniques (X-ray, CT, MRI and ultrasound) for direction. Patients can be treated and diagnosed using minimally invasive procedures.
